2018 CP World Games - First Entry Information
Growing Opportunities for CP athletes

The 2018 CPISRA World Games represents a unique opportunity to grow the participation of athletes with cerebral palsy, and related neurological conditions, across a number of Sports, Classifications, Events and Disciplines. This is particularly important for those sports and events which are not currently part of the Paralympic Games programme, but where there is an aspiration to develop these for the future.

As an IOSD and membership, we have a collective responsibility to develop the World Games as a catalyst for enhancing CP opportunity and participation, and provide opportunity for all.

Together we can showcase the need and desire for increased opportunities for CP athletes across sport and recreation, therefore it is of vital importance that we continue to utilise the exciting platform that the World Games provides.

CPIRSA and the Local Organising Committee are delighted to invite athletes, coaches, staff, officials and volunteers to be part of the 2018 CPISRA World Games in Sant Cugat – Barcelona, Spain.

The fantastic facilities located in Sant Cugat, which include a Sports High Performance Centre, will play host to athletes from all around the world. We look forward to welcoming your teams and athletes to Catalonia – Spain.

Overview

LOC: Federació Esportiva Catalana de Paralítics Cerebrals (FECPC)

Supported by Federación Española de Deportes de Personas con Parálisis Cerebral y Daño Cerebral Adquirido (FEDPC)

Location: Sant Cugat, Spain
A very positive number of Intentions to Compete received from countries across all 5 IPC regions, and with country and athlete entry levels exceeding Nottingham 2015, we are looking forward to an exciting programme for all sports.

**IPC Sanction - World Para Athletics and World Para Swimming Classification and Officials**

Through our partnership with the International Paralympic Committee (IPC), World Para Athletics (WPA) and World Para Swimming (WPS), CPISRA can now confirm that both Para Athletics and Para Swimming at the 2018 CPISRA World Games will be IPC sanctioned 'IOSD Championships'. This status for both sports will mean that WPA and WPS respectively will provide both Officiating and Classification personnel to support the delivery of the games.

**RaceRunning**

World Para Athletics announced on Wednesday, 25 October, the inclusion of RaceRunning events for athletes with severe co-ordination impairments in competitions from 2018. The growth and development of RaceRunning in recent years, through the partnership between CPISRA and Parasports Denmark, has seen participation grow substantially. The 2018 CPISRA World Games will be one of the first events where RaceRunning will be part of the Para Athletics programme with WPA Classification and officials. This represents a great opportunity for countries to send athletes, coaches, and support staff to learn more about the discipline and experience world level competition.

**Para Taekwondo**

Following on from the most successful Para Taekwondo World Championships to date, the 2018 CPISRA World Games provides the highest level competition for CP athletes in the Poomsae format. Sanctioned by World Taekwondo (WT), with both WT classification and officials, this is a fantastic development from its introduction as a development sport in the 2015 CPISRA World Games in Nottingham, England.

**Female CP Football**

Committed to provide CP Football opportunities for all, the International Federation of CP Football (IFCPF) are working with partners and member organisations to offer a range of opportunities for players at all levels, including the development of Female CP Football.
Following a number of grants recently made to countries to develop Female CP Football, IFCPF and CPISRA will offer a Female CP Football Development Camp and Competition at the 2018 CPISRA World Games.

This will provide an international platform for female players to participate and compete and will run alongside the 2018 IFCPF World Cup U19 which is already part of the partnership between the two organisations.

**Wheelchair Slalom Development**

FECPC International have been successful in their application for funding from the EU for the development of Wheelchair Slalom. In addition to training provided in a number of countries and development of the sport rules, the project will also provide opportunities at the 2018 CPISRA World Games for participants to learn about the sport in the Development Camp.

FECPC will also host a Wheelchair Slalom Conference to share best practice in social inclusion, present the findings and progress of the project and support other organisations to develop the sport of Wheelchair Slalom. This conference will be open all attendees of the World Games, and anyone else who is interested should contact info@cpworldgames.com
This is a preliminary sport programme and the LOC reserves the right to remove any sports/events that are not viable due to a low number of entries.
