I continue to be incredibly proud of the work that we do in enabling people with CP to reach their sporting potential. Having been a trustee since Jan 2016 and chair since July 2017 and as someone with CP, I’m both honoured and humbled to be leading such a vibrant and forward thinking charity which remains dedicated to opening up as many opportunities as possible for our beneficiaries who are always at the heart of everything we do.”

Since publication of our trustee report, we have led Team England out to Spain for the World Games and I cannot overstate the success of the games. Coming top of the medal table was an amazing achievement which exceeded everyone’s high expectations. I would like to congratulate every single person and the team for organising. You sent my twitter into overdrive that week! Last October, we also received the very exciting news that RaceRunning was to become a World Para Athletics Event. As a charity, we have worked relentlessly to raise the profile of RaceRunning and we are extremely excited about the amazing opportunities that this will open up for our athletes.

The Board of Trustees continues to provide a wealth of experience and knowledge which is helping to shape and develop the charity. The new Articles – which have hopefully just been approved! - will continue to develop our governance processes and we are building our Board membership in order to ensure that we have a broad range of experience to draw on. As someone with Cerebral Palsy, I am keen that as many members of the board as possible have a personal link to our cause and we view this as a key strength of our Board.

We continue to develop and nurture our partnerships with National Governing Bodies, County Sports Partnerships and other National Disability Sports Organisations, as well as other third sector organisations. We firmly believe that working closely together is critical to us being able to deliver the broadest range of opportunities to our beneficiaries.

Cerebral Palsy Sport has a thriving social media presence and I am very proud of how many people with cerebral palsy have shared their “My Story” with us and the rest of the world. I am hearing compliments about our growing website too. We are providing more sporting opportunities than ever, from our Start taster sessions and grassroots programmes, right through to opportunities at the international level. Our cerebral palsy awareness training is extremely popular and we continue to strive to let as many people as possible know that we are here, aiming to improve quality of life, raising aspirations and promoting inclusion in sport.

I would like to take this opportunity to sincerely thank my fellow trustees for their dedication and commitment to the Board. I am extremely grateful to you for supporting me as Chair and the team spirit which we have developed.

On behalf of the Board of Cerebral Palsy Sport, I would like to send our sincerest condolences to the family of trustee Paul Schorb who sadly passed away on 9th June 2018. Paul was a much loved member of the Cerebral Palsy Sport Family who made a valuable contribution to the Charity which will never be forgotten. I’d also like to thank our CEO Ali Talbot and all our brilliant team on all their hard work which helps
so many and ensures our continued success. Finally, my sincere thanks to each of our many funders, volunteers and supporters who enable us to do what we do. Thank you!”

7. **To consider the CP Sport Annual Reports and Financial Statements: Year Ending 31st December 2017.**
   a. UHY Hacker Young Auditors Report – the report was delivered by lead Auditor Mr Richard Tattersall from UHY Hacker Young.
   b. **AUDITORS’ REPORT**

   “Thank you for inviting UHY to be here this afternoon, I’m delighted to be here on World Cerebral Palsy Day. I am very pleased to report that our third annual audit of the accounts of Cerebral Palsy Sport went very well, and our report on the financial statements for the year ended 31 December 2017 was a clean report. As last year, the accounts and Trustees’ report are clear and informative, and they are available to download from the Charity Commission and Companies House as well as the CP Sport website.

   We had a very useful discussion in July with Ali as Chief Executive and two of the trustees, Aideen Blackborough and Paul Marriner, before finalising the accounts and the audit. We are pleased that the change of bookkeeping and management accounts support has been successful, and we have no concerns about the financial controls in the company.

   We noted that both income and expenditure fell in 2017, but that the charity has controlled costs tightly, and produced a small surplus of £3k which has kept the balance sheet in a healthy position, and enabled the charity to continue delivering its extensive programme and support across a wide range of sports. CP Sport was able to go into 2018 ready for the World Games, in which Team CP England had such excellent results.

   We would like to thank Ali and her team, and PeopleShare, for their assistance during the audit. We also thank the Board of Trustees for their close scrutiny of the figures during the year. Together with Ali they have continued to build on the funding position in the previous year, so that the charity is in a positive place in 2018.

   We look forward to continuing to work with Cerebral Palsy Sport in 2019.”
